Australia/New Zealand Range Brochure 2018/2019

The Fashion of Writing

Writing is simply fun with ONLINE!

Analogue designing with pen and paper is again in line with the current trend. Far away from the digital world, handmade is the art of writing: Handlettering is the new trend and means nothing less than the art of beautiful letters, which are naturally hand-written or rather drawn and painted. By individual handwriting unique small works of art are created.

There is a lot on offer for individual writing styles at ONLINE: fountain pens available with various nib sizes for the lefthanded or right-handed alike, rollerballs with ink cartridges and calligraphy nibs, again available in three different sizes, for creativity using your own handwriting.

With the variety and choice of the collection 2018 there is a suitable pen for everyone who is a fan of handwriting true to the motto: ONLINE – Your line, your style!

We wish you much pleasure and success for 2018/2019,

Your ONLINE-Team
